OBJECTIVE

Junior Java/Web Developer and ICT Support Specialist with a Diploma in ICT and hands-on experience in Java, Spring Boot, JavaScript, MySQL, and web development. Skilled in IT support, networking, Microsoft 365, and system administration. Experienced in incident management, change management, and service desk support through IT Service Management (ITSM) practices. Currently serving as IT Intern at Ntinga OR Tambo Development Agency, with prior development and technician support roles at Deviare and the Department of Social Development.

EXPERIENCE

Ntinga OR Tambo Development Agency — IT Intern

Mar 2026 – Present

- Supported users with hardware, software, and network issues through first-line and remote AnyDesk troubleshooting.
- Built and maintained websites with HTML, CSS, and JavaScript while also handling Microsoft 365 support, system updates, backups, and asset documentation.
- Installed and configured printers, added users to printer queues, and ensured reliable printing services across the office.

Deviare (PTY) LTD — IT Intern / Technician Support

Oct 2024 – Sep 2025

- Technician Support: Contributed to web application development using HTML, CSS, JavaScript, Java, Spring Boot, Node.js, MySQL, and Oracle Apex.
- Worked in Agile teams and gained exposure to AWS, Docker, and Jenkins while also supporting laptops, desktops, printers, and Microsoft 365 users.

Department of Social Development —

IT(Volunteered) Intern

Oct 2025 – Feb 2026

- Provided desktop user technical support, resolving hardware, software, and connectivity issues.
- Monitored and assisted with installation of ICT equipment, ensuring proper configuration and functionality.
- Supported the provisioning and maintenance of ICT network infrastructure, including cabling, WAN checks, and Layer 2 troubleshooting.
- Helped implement ICT governance policy procedures, ensuring compliance with organizational standards.
- Rendered telephony services and support (HBT and phone systems), assisting staff with reliable communication tools.
- Applied **IT Service Management (ITSM)** practices in incident management, change management, and service desk support.
- Assisted with Windows 11 upgrades, secure backups, and restoration of user data.
- Installed hardware/software on laptops, desktops, and printers, and configured devices for staff use.

Department of Social Development — IT

Intern Sep 2023 – Aug 2024

- Provided desktop user technical support, resolving hardware, software, and connectivity

issues.

- Monitored and assisted with installation of ICT equipment, ensuring proper configuration and functionality.
- Supported the provisioning and maintenance of ICT network infrastructure, including cabling, WAN checks, and Layer 2 troubleshooting.
- Helped implement ICT governance policy procedures, ensuring compliance with organizational standards.
- Rendered telephony services and support (HBT and phone systems), assisting staff with reliable communication tools.
- Applied **IT Service Management (ITSM)** practices in incident management, change management, and service desk support.
- Assisted with Windows 11 upgrades, secure backups, and restoration of user data.
- Installed hardware/software on laptops, desktops, and printers, and configured devices for staff use.
